

## Book Launch for Dr. Diana Lary's *China's Civil War: A Social and Cultural History*

*China's Civil War* is a social history of the 1945-9 civil war that brought the Chinese Communist Party to power. It integrates history and memory to help to understand a period of intense upheaval. Drawing from biographies, memoirs, illustrations and oral histories the book gives voice to those who experienced the war at first hand. The book explores the long-term impacts of the social upheaval, the separations, the exiles and political divides that came from the civil war.

*"Professor Lary has analysed in depth the social forces that prepared for the CCP's victory. She writes with deep compassion for the Chinese people who have gone through the greatest social upheaval in their history. A huge contribution to the understanding of China's Civil War."*
