Concurrently a Visiting Professor at Peking University, Dr. David Kelly (honours degree anthropology and philosophy and a PhD in Chinese studies from the University of Sydney) leads the governance and law, and geopolitics teams at China Policy, a Beijing based research and advisory company. His interests encompass a sweep of issues affecting China's domestic reforms and its strategic positioning, with a particular interest in the external impact of China's governance model. His more than thirty years research on China combined with his early IT training, created the ChinaBase, a bilingual research tool specialized for tracking China's policy realm.
