

# Disaster Reduction Roundtable for Enhancing Resilience

Organized by:  
Minister of State for Emergency Preparedness  
Consulate General of Japan  
UBC Centre for Japanese Research

## Purpose of this roundtable:

- To share with Canadian policy makers and disaster management practitioners, the hands-on experiences of Japan and to have exchange views.
- To raise awareness towards disaster reduction in Canada.
- To share the tested Japanese earthquake engineering expertise with the scientific community and the construction industry in Canada and to have dialogue among participants
